Annoncement of the Democratic city primary ticket was made at Col. James Lang's drug store last night. The entries were quietly made, and no cards were published calling on people to become candidates for any of the offices. Yesterday it was impossible to secure any information about the entries, though it was stated by those in authority that Congressman J. P. McCarthy would not be put on the ticket, and that former Alderman Lucian Durrett could not be persuaded to make the race again. However, at the eleventh hour he was coaxed into it, and by midnight Colored Lang was able to announce eight candidates for the four places on the board of aldermen, and it is no secret that those responsible for the ticket hope to see three new names on the Democratic aldermanic ticket this fall.

The line-up for aldermen in the primary will show four possible candidates for the nomination for mayor next year. Aldermen Ernest Lackey and Joe Potter are frequently spoken as in the race and Lucian Durrett and G. R. Davis have aspired before. Success at the November election might be expected to awaken dormant ambitions and others might be affected in the same way.

Discussion of mayoralty candidates is heard in political circles frequently now, and some of the candidates are beginning to throw feelings toward public sentiment. Though not an avowed candidate, nor even admittedly a receptive one, W. F. Bradshaw, Jr., chairman of the Democratic city and county committee, is frequently mentioned as a live possibility and a number of influential citizens are openly advocating his nomination.

New York, Aug. 25.—A special meeting of the Republican state committee to solve the question of who shall be temporary chairman, and thereby prevent a fight on the floor of the state convention, was a report which Lloyd C. Mr. Griscom did not deny that he had received word from several state committeemen who had voted in committee for Mr. Sherman for temporary chairman that they were ready to join the so-called "progressives."

They are: "Dissavore's Teaching in District Schools," "Allen's Civics and Health," and "Hamilton's Recitations." It is important that the teachers study these books and Superintendent Feezor will organize a reading circle early in September.

Otherwise the city is held liable for accidents and heretofore no reports have been turned into the headquarters by patrolmen. Mayor Smith requested that this rule be followed strictly some time ago and all patrolmen will be required to be more prompt hereafter.

COAL STRIKE GOES ON IN ILLINOIS.

Chicago, Aug. 25.—Hope of ending the strike of coal miners in Illinois ended today, when the Illinois Coal Operators' association, in session here, voted unanimously not to accept the miners' Peoria scale. One hundred and thirty mining companies controlling 350 miles, were represented at the conference, and each company gave a bond to uphold the resolution and stand out against the miners.

The resolution affects 50,000 of the 75,000 coal miners in Illinois now on strike, the companies in the First and Ninth districts previously having adopted the scale and ended their labor troubles.

A committee of nine men was appointed to review the situation and to take steps looking toward arranging a new scale. The association adjourned following the appointment of the committee which will hold its first meeting tomorrow.

Colonel Acklen stated in his letter that the dynamite was to be used for this purpose only, and not for the purpose of killing fish.

The dynamite will be placed in the crevices by a diver and all will be shot off once by the means of an electric battery.

Daily Thought.

There is always home in a man that actually and earnestly works. In idleness alone there is perpetual despair.—Carlyle.

For the Fickle Georgia!

It appears from reports of the grand lodge meeting that some Eagle has been feathering his own aerie.

Maybe the cold wave was heated by the forest fires in the northwest before it got started this way.

It seems a shame to separate a couple like the Cudahys.

Dabliman's victory over Bryan's man in Nebraska was a bare 200; with a contest for fraud in prospect. Mr. Bryan isn't quite dead yet.

PROPRIETARY REMEDY FOR CIVIC CONDITIONS.

The Democratic city primary ticket, as compounded behind the prescription counter of Col. James Lang's drug store, is offered to the public, though the formula is not plainly printed on the bottle. Testimonials, accompanying the announcement, refer to it as "Lang's Specific for Political Party"; but if, as claimed this morning, it was prepared according to the directions of the Democratic Lucretia Borgia on Fourth street, which has been trying to poison Ed Hannan and Col. Joe Potter for several weeks, some people should be careful about the dose.

WASH DAY.

A great deal of dirty linen, political and industrial, is being washed in public, and washday is always disagreeable. Too many of our citizens, we fear, possess the childish spirit of enjoying the mass and playing in the dirty water; when the attention of all should be concentrated on getting the linen clean. White clothes hanging on the line Tuesday is the justification of every Monday's trimmell. If we tire of the mess with the linen as dirty as ever and ourselves bemattered, we shall quit worse off than when we started. Let us clean things up, and not cease until we have improved conditions so that they are less likely to get dirty again.

We have in National life several great reform leaders and while they are in the ascendancy conditions seem to improve, public service is more responsive to the demands for betterment and official life takes on higher character. But those men cannot live forever. Conditions, which attach to their personalities and individual efforts will pass away with them, and future conditions will depend upon the kind of men, who are in control then. We know that selfish influences are persistently at work, while altruism and patriotism are sometimes growing weak. Experience teaches us that in the past reforms have followed prolonged periods of political despotism, and always at the expense of much bitterness and waste.

If we are satisfied with the improved conditions these men bring, and do not sustain the effort long enough to permanently secure those conditions against influences that will endeavor to succeed them with lesser men, we are not deserving of the heritage won for us at the blood cost of the revolution. The short

ballot for the state, the commission government for the municipality, with the initiative and referendum and recall for both state and city, and the popular primary under the state board of elections for both parties, are among the measures that would go far toward returning to the people their voice in the selection of men to fill public positions and the right to dictate the course of public policy.

Flint, Michigan, has a hard name—but that does not keep people away.

STATE PRESS.

A Sound Beginning.
Speaking at Georgetown, O., Senator Oliver, of Ohio, laid down some sound principles.—Owensboro Messenger.

The Ten Days' Rule.
Governor Beckham in the Kentucky State Journal says: "The course of Kentucky legislation is not the result of the influence of paid lobbyists. Through the efforts of the unconscionable postmaster general he has not endorsed Patterson for his pardon."

Tennessee was redeemed the other day when a judiciary was elected which Governor Patterson cannot sway. It will be completely redeemed on November 8, when Patterson is cast out for good and all, and a man of the modern, law-abiding type is put in his place.—St. Louis Globe-Democrat.

No Use for Jails.
Gov. Malcolm R. Patterson, of Tennessee, paraded seven more criminals last week, and then announced that he was willing to waive his latest re-nomination and run again in a Democratic primary. If another primary is ordered there will be no more use for jails in Tennessee by the time the polls open.—New York Tribune.

Agree With Patterson.

Patterson "Indignant."
Governor Patterson, of Tennessee, who attempted to influence the rules what legislation should be the decisions of the courts, is enacted during the last ten days of "viciously intermeddling" in Tennessee politics.—New York World.

Rebuking a Boss.
No political boss, Democrat or Republican, ever received a more stinging or a more deserved rebuke than Governor Patterson, of Tennessee. Patterson is the man who first tried to make the supreme

court in all the state send back for a new trial the case of Duncan Cooper, who was convicted of killing former

lobbyist gets in his work through the court sustained the verdict, and in a few hours Patterson issued a pardon to Cooper.

Then the Democratic boss started to eliminate the judges who had refused to do his bidding. Controlling

the entrance of Hon. John K. Hendrick, of Paducah, into the Democratic party, he abolished

the special state convention at which

candidates were to be nominated.

The judges who had upheld the

convention were candidates for renomina-

tions, and they ran on an inde-

pendent judicial ticket in the elec-

tion, and they won out.

Patterson in the Democratic nomi-

nace for governor, Tennessee is a

Democratic state, and it has always

been "regular." The election showed

there are enough independents to re-

elect him in an unmistakable way a boss

as governor would coerce and

overturn the highest judicial

tribunal in the state. It remains to

be seen whether these independent

Democrats will do their duty as elec-

tors at the polls by retiring forever

the man who has shown he should

not be trusted with the power he

wields as chief executive.—Hele-

na (Mont.) Record.

Independent Democrats Stand Steadfast.

The state committee of the Inde-

pendent Democrats, in calling a con-

vention to meet in Nashville on Sep-

tember 14, and in deferring all mat-

ters relating to the policies of the

Democrats to that convention, acted

with discretion and wisdom.

While the individual members of

the committee are in sympathy with,

and endorse, the fusion with the Re-

publicans, they deemed it expedient

for the people to speak for them-

selves in the good old Democratic

way to the end that the charge of

bossmanship and machine control could

not be lodged against them.

When they, in the regular Demo-

cratic way, called an old-time Demo-

cratic convention by the people,

they did right, for now those Democ-

rats who are for law and order and

against Patterson, have an opportu-

nity to aid in forming a permanent

Democratic organization from its

prostrate and degraded depths into

which it has been plunged, and, after

the cleansing and regenerating pro-

cess is complete, go on as of yore in

its conduct of the public affairs.

At that convention the people,

through the agency of their regularly

appointed delegates, will do as they please, without the dictation of a boss, in the matter of endorsing or

renominating Ben Hooper for gov-

ernor and Gus Enloe as railroad

commissioner, for it is assumed that

the convention will be practically

unanimous on that point, for the

one hundred and forty-odd thousand

persons who voted for the free judi-

ciciary and against insolent machine

domination will also be for the fu-

sion nominees for governor and rail-

road commissioner.

They were right in August, and

they will be right in November.

The Republicans aided the Democ-

rats in August, and the Democrats

will aid the Republicans in Novem-

ber. Nothing can stay the onward

march. A patriotic spirit is in com-

mand, and a determined purpose

makes victory assured.—Nashville

Tennessean.

TENNESSEE COMMENTS

Ten More Pardons.

Ten pardons were granted by Governor Patterson last week. He evidently fails to understand the handwriting on the wall, or wants to pardon enough men to insure his re-election despite his unpopularity. Fort Worth (Tex.) Record.

Boat Patterson.

There is still some reason to believe that Tennessee is due a place with the 47 other commonwealths of this land. Governor Patterson has been given a deserved rebuke. The candidates put up by him for places on the supreme court bench for places

recent state election, there is good ground for a new campaign to gain several congressmen.

The Right Kind of Man.

Do you ask who is Ben Hooper? He is the man who, when solicited to give aid to the Baptist orphanage at Knoxville, sent his personal check for \$10,000 with a very brief letter directing that it be used to the best advantage. That's the kind of a man the people love to vote for.—Bristol Evening News.

Tennessee Redeemed.

Tennessee was redeemed the other day when a judiciary was elected which Governor Patterson cannot sway. It will be completely redeemed on November 8, when Patterson is cast out for good and all, and a man of the modern, law-abiding type is proposed for the long term nomination in the Sixth

district.

HERMIT KINGDOM TAKEN BY JAPAN

REPRESENTATIVES OF FOREIGN POWERS NOTIFIED.

Natives in Interior May Rebel Against Jap Government—Independent Struggle.

IMMEDIATE CONTROL IS GIVEN.

Tokio, Aug. 25.—The text of the convention under which Korea was annexed to Japan was communicated to the representatives of the powers. The document which now establishes fact, was signed Aug. 24 and will be effective to some of the ministers Aug. 29 or 30, when the independent existence of the Hermit Kingdom, the struggle for whose control started the Russo-Japanese war, will cease.

Baron Hirata, minister of the interior, summoned the proprietors of all the Japanese newspapers to his cabinet today and requested them to publish no unauthorized information regarding the situation in Korea. He pointed out that such publication under existing conditions would only make the task of the Japanese government more difficult. The newspapers agreed to his wishes and nothing regarding the annexation beyond official statements will therefore be published before the publication of the promulgation of the convention.

The Japanese government, which has a large number of representatives already in Korea, will be prepared to take over the machinery of administration in Korea without any delay. Considerable uneasiness is reported at Seoul, owing to the circulation of threats of disorder following the annexation. These emanate, according to the view taken here, from malcontents, who have not received the consideration which they think due them in the provisions made by the convention for the future of the Korean royalty, nobles and officials. Sporadic outbreaks in protest against the absorption of Korea by Japan are anticipated, but serious rioting or even widespread objection from the Koreans to the annexation is not expected.

Although the long expected official announcement of the annexation of Korea by Japan has aroused the greatest interest in diplomatic and business circles, it causes no surprise.

The British foreign office for some time has been conducting informal negotiations with Japan with the view of protecting British interests in Korea under the Anglo-Japanese treaty of alliance of 1905, which stipulated that the free hand enjoyed by Japan in Korea shall be subjected to the principle of equal opportunities of commerce and industries of all nations.

VIRGINIA OF THE AIR LANES

A Romance Of Flying

By HERBERT QUICK

Copyright, 1909, by the Bobbs-Merrill Company

CHAPTER XVIII.

ALONG ON AN ISLAND IN AIR.

THE billif, a tottering old fanny-tony with a white mustache of Ibsunckian thickness, warily laid a raptorial claw on Craighend's sleeve.

"Amateur day in court?" he hissed in the billif's ear. "The hook! I go, but my logic sticks! Stone walls do not—"

Mr. Filley here interposed to such effect that Craighend was fined, expelled and set free. Mr. Filley's masterly address was based on the law laid down by Craighend, reference to which finally evoked a smile from the justices. In a week an injunction was issued as prayed. The airoships of the whole nation were tied up; the Universal Nitrate and Air Products company made the Carson-Craighend Aerocar company its sole licensee; the Carson aerocars were the only dying machines which could be used; the law of real property was invalidated; Aerostatic Power dropped to nominal prices; Craighend was suddenly recognized as the most overshadowing genius legal strategy had ever known; Carson stood high in finance and diplomacy; the factories for manufacturing flying machines were offered to him at his own terms, payable in Carson-Craighend stocks; thousands of men were put to work on the Carson aerocar; the Waddy family began to occupy space in newspapers and magazines; the world of business whirled about and readjusted itself to the explosion—all of which took place.

And in the midst of the first excitement following item appeared in a newspaper:

A bizarre result of the McFadden decision is the marriage of Mr. Finley Shayne, erstwhile prince of the powers of the air, at Shayne's Hold, where the Roc was enjoined. There is no express from the hold save by airship. The Carson crowd has the air rights surrounding the mountain, and Mr. Shayne and his family have the right of getting away except by using the injunctions.

No craft save the Carson aerocar, the Virginia, can go to them or anywhere else.

Mr. Shayne will starve rather than allow her to land. This sounds like a joke, but Mr. Shayne takes it seriously. The easelaws are Mr. and Mrs. Max Silberberg.

Carson approached Craighend with his finger pointing to the Heim. Craighend read it glee.

"When Shayne has eaten the last poisoned rat," said he, "and worn his bones raw snaring rattle snakes away except by using the injunctions."

"You imprison me and then insult me. Coward! If going in the Roc is so easy, why don't we go? I thought I was married to a man!"
